Pick-a-WooWoo

Inspirational Spiritual Books for Children

The Pick-a-WooWoo books for children are a series of books designed to encourage spiritual growth. Our books inspire joy and laughter and help create a more enlightened world by helping children with their mind, body, spirit connection.

What do you mean by Spiritual? Are these Religious books?

When we talk 'Spiritual books' or 'Spirituality' we are not talking about a religion or a belief system. People from all beliefs and from all spiritual paths read the Pick-A-WooWoo children's books.

'Pick-a-WooWoo books are 'non-aligned'. While all the books are borne out of a thoughtful, modern consciousness, they are by no means all connected to any one philosophy or outlook.

This enlightening series highlights, in a child friendly, fun and interactive way, the following insights:

- Spirituality is synonymous with unconditional love.
- Our spiritual consciousness shapes our experience of life.
- There are many paths to spiritual awareness and enlightenment.
- We are multi-dimensional beings whose existence extends beyond the physical.
- Spirituality provides us with a sense of meaning, the possibility of personal transformation and celebration of life.
- Spirituality expresses unity, and unity is beyond the need for boundaries; every person and every thing in our universe is ultimately connected.

"A child raised with spiritual skills will be able to answer the most basic questions about how the universe works. They will understand the source of creativity both within and outside themselves. They will be able to practise non-judgement, acceptance and truth.....And they will be free from crippling fear and anxiety about the meaning of life that is the secret dry rot inside the hearts of most adults." **Deepak Chopra**
